

# CIEE HIGH SCHOOL EXCHANGE USA

## WHERE THE DISCOVERY OF NEW CULTURES IS AN EVEN EXCHANGE

### About CIEE

Founded in 1947, CIEE is the world leader in international education and exchange, delivering the highest-quality programs that increase global understanding and intercultural knowledge. We provide participants with skills, competencies, and experiences that elevate their ability to contribute positively to our global community.

CIEE brings you the most qualified international students and supports them every step of the way, ensuring that the exchange experience fully benefits the student and your school community.

### We match the right student with the right school

- **Placing the best students** – We make sure our students will adapt and succeed in your school through a careful screening process that includes testing, personal interviews, and more.
- **Finding the right students** – The students we choose for our programs are driven to succeed at your school and in your communities.
- **Benefits for your student body** – We recognize the value of having a globalized classroom from both an academic and cultural perspective.

### We ensure a seamless experience for everyone involved

- **Host family screening** – We carefully select our host families through an extensive process that ensures each family provides a nurturing, safe environment for our students so that they may contribute positively to your school community.
- **Student orientations** – We conduct in-depth student orientations that include intercultural workshops and personal development activities to equip every student with the tools they need to successfully integrate into the community.
- **Local support** – Every student is assigned a CIEE Local Coordinator (LC) who lives in your host community and knows your school. LCs are available to your staff members and our international students to answer questions and handle concerns, ensuring a smooth adjustment and a positive experience.
- **24/7 support** – Our professionally trained, multilingual support staff are available for you and your students to address any needs that arise throughout the school year.
- **Medical coverage** – While on program, our students receive comprehensive medical insurance coverage from CIEE.

### The world awaits. Introduce CIEE study abroad programs to your students.

Just like our international exchange students, your high school students could have a chance to explore the different cultures that make up our world, and gain international perspective and skills that can give them an edge.

Our Global Navigator High School Outbound programs will broaden your students' horizons, giving them the chance to explore the world, experience a new culture, and learn something new. Your students will come home with a better sense of who they are and where they want to go.

## HIGH SCHOOL EXCHANGE USA

“When we have international students come and spend time with us, we learn from them and they provide us with a really valuable global perspective. It helps us understand who we are through their eyes, and they can enjoy the cultural experience that we bring.”

– Mike McRaith

Principal, Montpelier High School  
VERMONT

## ENRICH YOUR CLASSROOM— AND COMMUNITY

Welcoming an international student gives a young person the opportunity to live like an American, experiencing rich academics and every aspect of social, extracurricular, and daily home life. This creates appreciation for our nation and pathways for cultural exchange.

In our global community, it's more important than ever for American students to interact with and learn about people from diverse backgrounds. Exchange students bring new perspectives and opportunities for understanding that influence their American peers and leave a lasting impact on their schools and communities.

CIEE exchange students are smart, motivated, and ready to engage with their American peers—attributes that benefit any classroom. Each student arrives well prepared, with at least three years of English study and solid academic qualifications. The special connections international students make with teachers and classmates are what often leave the most indelible mark.
